| Description of Duties | | |

It was a full-time GP position and I had also night shifts and on-calls. During my shifts I was the only GP and worked independently at the clinic. I was responsible for visiting, managing and following-up all the patients coming to the clinic from all age groups, both genders and with all sorts of diseases. During my shifts I was also in charge of the clinic and supervising all health and medical services performed by the nurses and staff.

Summarize any of Your Achievements

achieving more experience of treating more complicated medical cases, getting to know more about the urban public health issues.

Reasons for Leaving

Immigration to Australia.

|--|---|--|
| Job Title UNV Medical Doctor | Type of Business Three years Contract | From - To 01/10/2003 - 01/10/2006 |
| Name of Employer UNDP and Ministry of Health of Trinidad and Tobago | Name of Supervisor Dr. Inyang Ebong- Harstrup | |
| Salaries per Annum: Starting 19092 | Final 27000 | Currency Paid USD |
| Is this a civil servant position of your Government? No | | Is this a position within the UN Common System? Yes |
| Telephone Number 1868623 7056 | Email Address | |
| Address of Employer Trinidad and Tobago | | |
| Number of Employees Supervised by You 15 | | |
| Description of Duties I was selected by the UN and assigned to work as a full-time GP at different district health centres in this country. I always worked in co-operation with another GP at each health centre but fully independent. My responsibilities were: visiting and managing all patients coming to the health centre with a different variety of medical complaints and from all age groups and both genders, and referring the more complicated cases to the tertiary health care as well as following-up the referred patients. I also worked in co-operation with the other GP as the management team of the health centre and supervised all health services conducted at the centre as well as teaching nurse students and junior doctors. The UNDP implanted the program, "Institutional Strengthening and Support to the Health Systems", in the Caribbean Region for assisting the countries to deal with their main and growing health issues such as, HIV/AIDS, Venereal Diseases, Teenage Pregnancy, Sexual Assault, Child Abuse, Diabetes, Hypertension and Obesity. As a United Nations Medical Officer, I took part in the project by conducting promotional health programs, disease screening, preventive and control projects, reporting the cases who were in danger to the authorities as necessary, as well as other health activities addressing the goals determined by the UNDP agenda in the region where I was assigned. | | |
| Summarize any of Your Achievements Achieving more knowledge and experience of the UN system and working in this working environment. Obtaining more Knowledge about Tropical Medicine and common medical and health issues as a global concern. Getting to know more about health promotional activities and being directly involved in health education. Getting to know new people, different cultures, and other health system than what I have been experienced in my hmoee country. | | |
| Reasons for Leaving Completion of my assignment. | | |

| | | |

Description of Duties

Working as an Internal Doctor (100 bedded Hospital) and Field Medical Coordinator with an Italian NGO of repute 'Emergency' in Afghanistan. As an Internal Doctor I'm responsible for diagnosis, treatment, care and management of all patients with Internal Medicine problems visiting in OPD, IPD and ICU. I'm also responsible for Primary Health care management & treatment in areas of Tropical & Infectious Diseases, chronic diseases like Hypertension, Diabetes, CAD (Coronary Artery Disease), Substance abuse, Emergency Medicine, ICU care and Medical teaching. Simultaneously I'm also working as Detention Medical Specialist Doctor in the Central Prison of Polycharki in Kabul, Panjsher and Sheberghan respectively, providing health care needs of the Prisoners of War (POW). The main areas are general medicine, Tuberculosis, Malaria, STDs, Skin Diseases, Leishmaniasis, Mental Depressions, Substance abuse and conducting regular health check-ups. As a Medical Coordinator I'm mostly working in the remote areas of three provinces (Panjsher, Kabul and Sheberghan) in Afghanistan. I was responsible for smooth running of twenty-three field Basic Health Centers located in the three Provinces. I'm leading a team of twenty-two health personnel's of the Organization in achieving time bound goals, Implementing and ensuring Organizational policy development in the area of Health Program under MOPH Afghanistan, Liaisoning with MOH, Developing & Writing MOU for different Health Projects as per Basic Package of Health Services (BPHS), Monitoring Immunization & TB Program under UNICEF and WHO in Central Prison (Polycharki Prison, Kabul) and two Provinces in the area. Over more than two years I'm playing a key role in the area of National TB Program for early screening, detecting, managing and treating (providing anti TB treatment under DOTS to people of Panjsher Province and Central Prison in Kabul). Reporting highly suspected as well as positive TB cases to appropriate bodies

| Description of Duties Set up and run the HIV/AIDS Section in MINURCAT. Provision of technical advice to the Head of Mission on UN policy directives vis a vis HIV/AIDS. Drafting and implementation of business continuity and crises preparedness plans for all areas of responsibility within the mission. Establish efficient HIV/AIDS awareness and prevention for Mission personnel. Provide HIV/AIDS awareness training for all mission personnel and local community. Develop a Voluntary Confidential Counseling and Testing (VCCT) providing individuals the opportunity to find out their HIV status which is a critical component in influencing behavior and preventing further transmission. Referring staff base on their medical condition to specialists as necessary and maintain a constant follow-up of patients' condition till recovery. Develop mission standard operating procedures and mechanisms for quality assurance of VCCT services to be circulated to all medical facilities and mission VCCT services. Monitoring and tracking distribution/usage of male and female condoms to personnel. Provision of post exposure prophylaxis Kits and HIV/AIDS in a clinic setting and dispatch them to all the locations of deployment within the mission area, including isolated sites. Integrating HIV/AIDS concerns in the Mandate implementation. Assist and support the re-establishment of effective police, judiciary and corrections system, monitor human rights and gender-based sexual violence. Peer education. Overseeing and providing health education and health promotion programs. Awareness raising and capacity building techniques and aim to harness peer leaders and role models as HIV peer educators in order to raise levels of awareness and impact on both individual and group behavior. Community activities Awareness raising and capacity to inform local community regarding HIV/AIDS concept in peacekeeping mission. Develop and implement QIPS and outreach programs. Performance & management of the section. | | |
| Summarize any of Your Achievements Since the commencement of the implementation of HIV/AIDS program in Eastern Chad, it is now evident that the culture of shyness and denunciation of the realities surrounding HIV/AIDS has changed to that of boldness and acceptance. Our struggle in fostering better partnership with youth and women association through training and sensitization programs, QIPs and open discussions, successes and measurable impacts have been achieved. This is constantly bringing about a positive change in the mentality of clients with a direct effect in a change in life style. I am confident that HIV/AIDS section is greatly contributing to the creation of a secure environment for not only the host population but refugees and displaced persons as a whole. Population informed about ongoing activities and MINURCAT visibly present and totally involved in the fight against HIV/AIDS in our mission area. The section has attained its staffing strength and the delivery of our expertise and HIV/AIDS services to MINURCAT staff, UNPOL Components, DIS (Integrated Chadian for Security) and to Chadian population is remarkable. Our efforts in raising the awareness of everyone regarding HIV/AIDS is changing risk behavior patterns which is an indicator of Best Practices achieved through my efforts. Availability of easy access to Voluntary Confidential Counseling and Testing (VCCT) at no cost to the individual. The strict abidance by my profession and appliance of the norms of confidentiality of my clients resulted to massive turnout of VCCT services within the mission. A number of possible communal sites have been identified and put into use. These sites such as Medical units, HIV Unit, VCCT center and dispatch Unit are now widely known as distribution points of our services. 24/7 availability of Post Exposure Prophylaxis Kits in all MINURCAT operational areas. This is in respect to the guidelines given by WHO and MDS. I make sure that the use of those PEP Kits is in agreement with client consent and only in cases of occupational exposure, accident and sexual assault. I put in place efficient crisis management and disaster management plans including guidance on universal precautions in order to reduce the transmission of HIV in medical emergency and in response of accidents. In consultation with the respective mission sections/units, I was able to identify mandated tasks that the mission needed to integrate with regards to HIV/AIDS concerns and provided technical support to the relevant policy and operational plans. HIV peer educators are now one of the keys to the Mission strategy in maximizing HIV awareness capacity and impacting knowledge on risk behavior change. I geared the Improvement of the overall efficiency of the HIV/AIDS staff within the mission in providing best services to MINURCAT personnel. | | |
| Reasons for Leaving I am still an active MINURCAT staff. | | |

Preparing and submitting monthly morbidity and mortality statistic. I perform other task assigned to me by my superior. | | |
| Summarize any of Your Achievements | | |

II) -18 SEPTEMBER 2003 TO 6 JULY 2004: Due to my exhibited competence I was reassigned to BUNIA as SECTOR MEDICAL OFFICER: - I supervised the setting up of Bunia clinic: - I was able to identify important and strategic issues which I do communicate with my supervisor promptly. I ensure that all administrative support for Medical Facilities are judiciously utilized in the Sector. -I Coordinate and monitor my work as well as that of my subordinates with easy and result oriented, provide Medical care to MONUC civilians under my responsibility. -I given prevention counseling on malaria and immunization necessary on the field. I educate MONUC staff on prevention and general counseling. I conduct MEDEVAC from Bunia to several areas eg level 2 Hospital or to level 3 or level 4. - I monitor environmental health in Bunia. - I oversee daily supervision, do the quarterly statistics analysis in the sector. - Work in close contact with the my Supervisor, the RAO and Head of office an view to solve the Medical problem on the field - I established and maintained a good relationship with UN Agencies and international and local NGO'S in Oriental. -10 August 2002 to18 SEPT 2003: Position of Sector Medical Officer in MONUC Kisangani, With good interpersonal skill, I coordinated all health activities between the sectors and Kinshasa including all MEDEVAC. I ensured a conducive working relationship with others UN Agencies and NOGS in Kisangani (DRC) I provided effective medical care to the staff and I properly managed the day-to-day Medical/administrative issues without complain from any quarter. I was able to identify key strategic issues and clearly communicate links between the organization strategy and the work unit's goal: I have adequate knowledge of mission work plan and to adapt it with Medical section work plan thus achieving optimal organizational goals and objectives for UN. I have good judgment and decision skills which helped to save many lives on emergencies. I maintained effective working relationship both as a team member and the team leader. I give opportunity to my team members to perform their work and delegate appropriate responsibility. I am able to operate across organizational boundaries. During my ten years with UN, I developed a good relationship (multi-cultural, multi-ethnic and respect the diversity of personnel). I am able to communicate both orally and in writing to my senior officials I have good knowledge of computer and relevant medical databases which I use effectively for better productivity. I do not discriminate; also I am in support of gender equity.
